

October 28, Wednesday (PART 1)					
from	to	Room A	Room B	Room C	Other Rooms / Lobby
8:15	9:00				registration (lobby)
9:00	10:30	Opening Ceremony			
9:30	10:00				
10:00	10:30	Lars Back, Google #1 Pushing JavaScript Performance	Vladimir Kuvshinov, HP #2 Value of using the single integrated ALM system in heterogenous environment	Mikheeva Svetlana, SKYROS #3 Requirements Testing Methodology	tee/coffee (lobby)
10:30	11:00	Steven Robinson, IBM #4 Real Insights. Real Results. Software Development and Delivery in Competitive Times	Marat Bakirov, Microsoft #5 Introduction to Windows Azure - Microsoft Cloud	roundtable #8 Information security of computer systems. moderator: Victor Serdiouk	
11:00	11:30	Nick Puntikov, Exigen Services #6 Information Technologies in Innovation-Based Economy	Vladimir Itsykson, Mikhail Moiseev SPbSPU #7 Automatic Defect Detection in Industrial C/C++ Software		
11:30	12:00	Zayko, Vitaly, Microsoft #10 New features of Microsoft Visual Studio 2010	Giulio Concas, University of Cagliari #9 Regulus: a tool supporting agile and non-agile processes based on meta-information		
12:00	12:30	Yuri Gurevich, Microsoft #12 The Security Tower of Babel	Andrey Karpov, Program Verification Systems #13 Early errors detection in parallel programs	Sebastian Wieczorek, SAP #14 Service Integration: A Soft Spot in the SOA Testing Stack	
12:30	13:00				lunch (lobby)
13:00	13:30				
13:30	14:00	Paul C. Brown, Tibco #15 Total Architecture: The Enterprise is the System	Konstantin Zhereb, MIPT #16 Automated Development of Applications for Graphical Processing Units Using Rewriting Rules	Stanislav Fomin, CustIS #17 Test management with Testopia — missing link?	tee/coffee (lobby)
14:00	14:30	Alexandr Alexandrov, Luxoft #18 Education and Consulting: the Dialectic of Contradictions	Oleg Ridchenko, Intetics Co. #19 Specifics of Entry-Level IT Project Managers in Eastern Europe	Andrey Bibichev, Custis #20 How to Design Large Scale Systems in Agile	

October 28, Wednesday (PART 2)					
from	to	Room A	Room B	Room C	Other Rooms / Lobby
14:30	15:00	Denis Khartikov, Intel <b>#21 Parallelism: Evolve your Code. An Overview of the IntelR Software Development Products.</b>	Vitaliy Filippov, CustIS <b>#22 Dressing Subversion: ViewVC and SVN-Searcher</b>	roundtable <b>#27 Professional communities: the cities of masters in the network age?</b> moderator Alexander Lozhechkin, Microsoft  Alexey Ieshin, F-Secure <b>#30 Test Automation: Flexible Way</b>  Sergei Andrzejewski, Exigen Services <b>#33 Planning Game for offshore XP project</b>  roundtable <b>#40 Value-Driven Development</b> moderator Nick Puntikov, Exigen Services  Nikolai Kazantsev, SpbSUT <b>#43 Color compression in video registration and security systems</b>	poster presentations (room D)
15:00	15:30	Dmitry Lapygin, IBM <b>#23 Evolution of Application Lifestyle Management (ALM) Solutions</b>	Dmitry Vavilov, Motorola <b>#24 Perspectives of Digital TV applications development in Russia</b>		tee/coffee (lobby)
15:30	16:00	Alexander Kondakov, Inspirex Consulting; Vladimir Khorev, Mera NN <b>#25 CMMI implementation and appraisal: a view from two sides</b>	Vadim Savkin, Kaspersky Lab <b>#26 Software inspections in practice</b>		tee/coffee (lobby)
16:00	16:30	Sergey Arkhipenkov <b>#28 "All Models Are Wrong, But Some Are Useful". Psychological Models In Software Team Management</b>	Nikita Sushkov, HSE <b>#29 Message System Refactoring Using DSL</b>		
16:30	17:00	Sergey Orlik, EDS <b>#31 Think Free</b>	Matvei Braginski, VC Mingorispolkom <b>#32 Software Development Management in Our Land</b>		
17:00	17:30	Nikolay Igotti, Sun Microsystems <b>#34 VirtualBox: Struggle for Performance in Type 2 Hypervisors</b>	Yuri Gubin, IFMO <b>#35 Neuro-Automata Based Controlling</b>		
17:30	18:00	Cornel Creanga, Adobe <b>#36 Design to development - Adobe Flash Catalyst</b>	Serguei Roubtsov, Technische Universiteit Eindhoven <b>#37 Dn-based Design Quality Comparison of Industrial Java Applications</b>		
18:00	18:30	Ilya Antipov, Technopark <b>#38 Structuring Software Spin-offs: Issues and Alternatives</b>	Artem Zarafyants, EMC <b>#39 WBEM/CIM &amp; WS-MAN technology application</b>		
18:30	19:00	Valery Kozuminskiy, IBA <b>#41 Developing software for critical systems: ensuring compliance with information security requirements</b>	Ilia Blaer, Exigen Services <b>#42 E-government and Outsourcing</b>		
		Moderator: Vyacheslav Nesterov, EMC	Moderator: Julia Nechaeva, NIX Solutions	Moderator: Sergey Polazhenko, SQA LAB	

October 29, Thursday (PART 1)					
from	to	Room A	Room B	Room C	Other Rooms / Lobby
8:15	9:00				registration (lobby)
9:00	9:30	Hillel Glazer, Entinex <b>#44 Love and Marriage: Why CMMI and Agile Need Each Other</b>	Stanislav Kalkanov, Luxoft <b>#45 Quality Assurance in practice or how to make project audit really useful</b>	simulation game <b>#50 Agile Requirements: requirements management in Agile</b> moderators: Askhat Urazbaev, Nikita Filippov	tee/coffee (lobby)
9:30	10:00	Grady Booch, IBM <b>#46 Best Practices in Software Architecture</b>	Anton Khritankov, Auriga Inc. <b>#47 An Approach to Software Project Feasibility Study Using Stochastic Risk Model during Proposal Preparation</b>		
10:00	10:30	Alex Wolf, ICL <b>#48 Content-based Networking</b>	Vladimir Gusarov, Quest Software <b>#49 Team Foundation Server – is it a luxury or means of transportation?</b>		
10:30	11:00	Workshop <b>#51 How to combine CMMI and Agile in real-life projects to optimize your engineering processes</b> Hillel Glazer, Entinex	Vladimir Rubanov, ISPRAS <b>#52 System for analysis of backward binary compatibility of shared libraries in OS Linux</b>		
11:00	11:30		Julia Nechaeva, NIX Solutions <b>#54 Catches of Testing Outsourcing</b>		
11:30	12:00		Igor Odintsov, Intel <b>#55 TRIZ methods in SW development to enhance the productivity</b>		
12:00	12:30		Vladimir Bulov, VAZ <b>#57 Creating technological portal commodity distribution network automotive company</b>		
12:30	13:00				#53 Wireless Sensor Networks. Current state and perspectives. moderator: Efim Grinkrug, SU HSE
13:00	13:30				
					lunch (lobby)

October 29, Thursday (PART 2)					
from	to	Room A	Room B	Room C	Other Rooms / Lobby
13:30	14:00	Alexander Babkin, Motorola #59 Multi-model process environment: how to survive and take advantage	Stanislav Fomin, CustIS #60 "The Cathedral or The Bazaar": Version Control — Centralized or Distributed?	Alexey Barantsev, ISPRAS #61 Generation of test scripts for application with GUI optimized for hand execution	tee/coffee (lobby)
14:00	14:30	Igor Agamirzian, RVC #62 Information Technologies in Innovation System of Russia	Alexander Khrushchev, Instream #63 Efficiency of usage of automatic tests in IT Projects	Tatyana Peftieva, Luxoft #64 Mind the GAP or how to provide stability and evolution in software development using CMMI GAP-analysis	
14:30	15:00	Alexander Lazarev, Intel #65 Intel Parallel Studio: why, what for and how?	Anton Kudinov, Tomsk polytechnic university #66 Example of implementation of MES Magistral-Vostok for oil and gas production enterprise	Grigory Gusev, Luxoft #67 Causal Analysis: Rational Simplicity Works	poster presentations (room D)
15:00	15:30	Vlad Gabriel, Microsoft #68 Software + Services: an Architect's View	Alexander Kondakov, Inspirex Consulting #69 CMMI Appraisals: He Who Laughs Last...	Andrej Krajnc, University of Maribor #76 Measuring the Advantages of the Software Factories Approach	tee/coffee (lobby)
15:30	16:00	Workshop #71 Total Architecture: The Enterprise is the System Paul C. Brown, Tibco	Cornel Creanga, Adobe #72 Building collaborative application with Adobe Flex and Adobe Flash Collaboration Service	roundtable #73 Software Engineering 2010. Educational and professional standards. Expectations of stakeholders. Moderator: Sergey Avdoshin, SU HSE	tee/coffee (lobby)
16:00	16:30		#74 Vyacheslav Vassiliev, Krasnyi Ugol Using Microsoft DSL technology to planning of the drug therapy course and diagnostic process		
16:30	17:00		Sergey Zykov, HSE #75 Designing patterns to support heterogeneous enterprise systems lifecycle		
17:00	17:30		Alexey Lyanguzov, Sun Microsystems #77 Context Driven Testing: Practical Use in Software Testing		
17:30	18:00		Alexander Orlov, Happy-PM #79 Professional Testing Engineer		
18:00	18:30	Closing Ceremony			
18:30	19:00
